

Invitation to Information Day

Stimulating and facilitating the participation of European researchers in Korean RTD programmes

Tuesday, **1 March 2011** from **13:00 to 17:30**

Universitätsclub Bonn, Josef Schumpeter Saal, Konviktstr.9, 53113 Bonn, Germany

Dear colleague,

I am pleased to invite you to the **KORRIDOR Information Day on the 1st of March from 13:00 to 17:30.**

KORRIDOR is a projected funded under the European Commission's 7th Framework Programme and is one of eleven **ACCESS4EU** projects which aim to increase the European research community's awareness of opportunities to participate in research, technological development and innovation (RTDI) programmes in industrialised countries outside Europe.

The objective of **KORRIDOR** is to promote opportunities available to Europeans researchers in programmes supported by the Korean government. This event is aimed at key players in the German research community who wish to learn about **current opportunities for European-Korean research cooperation** through Korean-funded programmes.

We are delighted that leading members of the most important Korean funding organisations: KIAT (Korea Institute for Advancement of Technology) and NRF (National Research Foundation) as well as KETEP (Korea Institute of Energy Technology Evaluation and Planning) have agreed to speak at this event. You will have the opportunity to meet them and will come away with a **greater understanding of Korea's distinct research strengths and resources** as well as **existing EU-Korean cooperation activities**. Please note that all presentations will be given in English.

We do hope you will be able to attend this informative and enjoyable event. Details of the programme, venue and registration form are attached. Places are limited so if you would like to attend please complete and return the form before **21 February** to Monika.Voigt@dlr.de

If you are unable to attend, but think a colleague from your organisation or another organisation would be interested in participating, please forward this email on.

To find out more about **KORRIDOR**, please visit www.access4.eu/southkorea.

We look forward to meeting you on March 1st.

Kind regards,

Dr. Sabine Puch
